PRODUCT DATA SHEET

Luoyang Naibao New Materials Co., Ltd.

Refractory Brown Fused Alumina Fine Powder

Grade / size: Grade / size on request | Product family: Refractory Fine Powder

Document ID: CY-PDS-EN-13 | Version: 1.0 | Date: 2026-10-02

Product overview

Refractory Brown Fused Alumina Fine Powder is part of the CHAOYAN refractory fine powder range for refractory matrices and castables. Specify the required form, grade, chemical limits and particle distribution before ordering.

Specifications

Product	Refractory Brown Fused Alumina Fine Powder
Grade / size	Grade / size on request
Product family	Refractory Fine Powder
Packing	Confirm bag or bulk packing and labeling with the order.

Chemical composition

Chemical limits for this product are confirmed in the agreed technical specification and batch test report. Please request the current specification.

Physical properties

Confirm the required physical properties in the agreed technical sheet and batch test result.

Particle size distribution

Distribution limits and sieve fractions are confirmed in the agreed technical specification and batch test report.

Applications

Refractory matrices and castables.

Processing and packing

Discuss particle shape, grading and sample matching for the intended process.

Confirm bag or bulk packing and labeling with the order.

Specific guaranteed values follow the agreed technical specification and batch test result.
