CHAOYAN

PRODUCT DATA SHEET

Luoyang Naibao New Materials Co., Ltd.

Refractory Brown Fused Alumina Grain

Grade / size: Grade / size on request | Product family: Refractory Grain

Document ID: CY-PDS-EN-10 | Version: 1.0 | Date: 2026-10-02

Product overview

Refractory Brown Fused Alumina Grain is part of the CHAOYAN refractory grain range for castables, bricks and refractory mixes. Specify the required form, grade, chemical limits and particle distribution before ordering.

Specifications

Product	Refractory Brown Fused Alumina Grain
Grade / size	Grade / size on request
Product family	Refractory Grain
Packing	Confirm bag or bulk packing and labeling with the order.

Chemical composition

Chemical limits for this product are confirmed in the agreed technical specification and batch test report. Please request the current specification.

Physical properties

Confirm the required physical properties in the agreed technical sheet and batch test result.

Particle size distribution

Distribution limits and sieve fractions are confirmed in the agreed technical specification and batch test report.

Applications

Castables, bricks and refractory mixes.

Processing and packing

Discuss particle shape, grading and sample matching for the intended process.

Confirm bag or bulk packing and labeling with the order.

Specific guaranteed values follow the agreed technical specification and batch test result.
